# **SECTION 2: Hazards identification**

## 2.1 Classification of the substance or mixture

## Classification (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture.

## 2.2 Label elements

## Labelling (REGULATION (EC) No 1272/2008)

No hazard pictogram, no signal word, no hazard statement(s), no precautionary statement(s) required.

## **Additional Labeling**

EUH211 Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist.

## 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Keep out of reach of children.

Wear safety goggles.

During spray application: Do not breathe spray dust. Use A2/P2 combination filter for paint spraying.

Ensure good ventilation during use and drying. Do not eat, drink or smoke while using the product. In case of contact with eyes or skin, immediately and thoroughly rinse with water. Do not allow product to enter drains, waterways or soil. Clean utensils immediately after use with soap and water.

Only completely emptied containers should be given for recycling.

Dispose of liquid material residues at the collection point for old paints/varnishes, dispose of dried material residues as construction and demolition waste or as municipal waste or household waste.

If the base paint or a wall paint is toned using a pigment paste or toning paste that does not conform to the requirements of the Blue Angel, the toned paint no longer complies with the criteria for the Blue Angel

For further technical information and advice for allergy sufferers, call +49 (0) 800/1238887.

## **SECTION 4: First aid measures**

## 4.1 Description of first-aid measures

| General advice          | : | Never give anything by mouth to an unconscious person.<br>If you feel unwell, seek medical advice (show the label where<br>possible).<br>Move out of dangerous area.<br>First aider needs to protect himself. |
|-------------------------|---|---|
| If inhaled              | : | Move to fresh air.  |
| In case of skin contact | : | Do NOT use solvents or thinners.<br>In case of contact, immediately flush skin with soap and plenty<br>of water.  |
| In case of eye contact  | : | If eye irritation persists: Get medical advice/ attention.<br>IF IN EYES: Rinse cautiously with water for several minutes.<br>Remove contact lenses, if present and easy to do. Continue<br>rinsing.          |
| If swallowed            | : | Seek medical advice.<br>Clean mouth with water and drink afterwards plenty of water.<br>If swallowed, DO NOT induce vomiting.   |

## **4.2 Most important symptoms and effects, both acute and delayed** None known.

# **4.3 Indication of any immediate medical attention and special treatment needed** Treatment : No information available.

# **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media      |   |   |
|------------------------------|---|---|
| Suitable extinguishing media | : | Use water spray, alcohol-resistant foam, dry chemical or car-<br>bon dioxide.<br>Use extinguishing measures that are appropriate to local cir-<br>cumstances and the surrounding environment.<br>Do not use a solid water stream as it may scatter and spread |

10.5 Incompatible materials Materials to avoid : Incompatible

Incompatible with acids and bases. Incompatible with oxidizing agents.

# **10.6 Hazardous decomposition products**

No decomposition if stored and applied as directed.

# **SECTION 11: Toxicological information**

# 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

## Acute toxicity

Not classified based on available information.

## Skin corrosion/irritation

Not classified based on available information.

## Product:

Remarks

: Based on OECD test 431 this product is not classified as skin corrosive/skin irritant. Information given is based on tests on products of similar composition.

## Serious eye damage/eye irritation

Not classified based on available information.

### Respiratory or skin sensitization

#### Skin sensitization

Not classified based on available information.

#### **Respiratory sensitization**

Not classified based on available information.

#### Germ cell mutagenicity

Not classified based on available information.

#### Carcinogenicity

Not classified based on available information.

### Reproductive toxicity

Not classified based on available information.

#### STOT-single exposure

Not classified based on available information.

#### STOT-repeated exposure

Not classified based on available information.

#### Aspiration toxicity

Not classified based on available information.

## 11.2 Information on other hazards

## Endocrine disrupting properties

Not classified based on available information.

:

#### Product:

Assessment

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

## **SECTION 12: Ecological information**

## 12.1 Toxicity

No data available

## 12.2 Persistence and degradability

No data available

# 12.3 Bioaccumulative potential

# No data available

# 12.4 Mobility in soil

No data available

# 12.5 Results of PBT and vPvB assessment

## Product:

Assessment

: This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

## 12.6 Endocrine disrupting properties

| Product:   |   |
|------------|---|
| Assessment | : The substance/mixture does not contain components consid-<br>ered to have endocrine disrupting properties according to<br>REACH Article 57(f) or Commission Delegated regulation<br>(EU) 2017/2100 or Commission Regulation (EU) 2018/605 at<br>levels of 0.1% or higher. |
|            |   |

## 12.7 Other adverse effects

| Additional ecological infor- | : | An environmental hazard cannot be excluded in the event of |
|------------------------------|---|--|
| mation                       |   | unprofessional handling or disposal.                       |

# **SECTION 13: Disposal considerations**

| 13.1 Waste treatment methods |  |
|------------------------------|--|
| Product                      | Materials and all related packaging must be disposed of in a safe way in accordance with the full requirements of the local, regional, national and international authorities. |
|                              | Washing water must not be discharged into the sewage sys-<br>tem or the environment.   |
| Contaminated packaging       | Only completely emptied containers should be given for recy-<br>cling.   |
| Waste Code                   | used product<br>080112, waste paint and varnish other than those mentioned<br>in 08 01 11*   |

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

# **REACH Information**

According to our legal obligation we implement the Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). We will adjust and update our safety data sheets on a regular base in accordance with the information of our upstream-suppliers. As usual we will inform you about the adjustments.

Regarding to the REACH regulation we would like to point out that DAW as a downstream user will not register on behalf of our company. We will rely on information from our suppliers. As soon as new information is available our safety data sheets will be amended accordingly.
